### TROPICAL CYCLONE ADVISORY NR. 3

#### Severe Tropical Storm "BEBINCA"

Issued at 11:00 PM, 11 September 2024

Valid for broadcast until the next bulletin at 11:00 AM tomorrow.

#### GENERAL OUTLOOK FOR THE FORECAST PERIOD

- Due to the Southwest Monsoon that is starting to be enhanced by BEBINCA, **up to moderate seas are expected** in the next 24 hours over the western seaboard of Palawan including Kalayaan Islands (1.0 to 2.5 m), the eastern seaboard of southern Palawan, and the eastern seaboard of Mindanao (1.0 to 3.0 m). **Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**
- BEBINCA is forecast to turn generally north northwestward tonight through tomorrow evening (12 September), shifting northwestward tomorrow evening through Friday evening (13 September), then west northwestward for the remainder of the forecast period. BEBINCA is expected to enter PAR on Friday afternoon or evening and exit PAR on Saturday morning (14 September). Throughout the forecast, this tropical cyclone will remain far from the Philippine landmass
- BEBINCA is forecast to intensify a typhoon category possibly by tomorrow evening.
- Despite being far from the Philippine landmass and not directly affecting the country, the trough of BEBINCA and the Southwest Monsoon will bring moderate to intense rainfall over MIMAROPA, Bicol Region, Visayas, and the northern and western portions of Mindanao beginning tomorrow. For more information, refer to **Weather Advisory No. 1** issued at 11:00 PM today. Note that the areas with monsoon-related heavy rainfall may change depending on possible changes in the track and intensity forecast of BEBINCA.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to continue monitoring for updates related to this tropical cyclone.

Unless there is an intermediate issuance, the next tropical cyclone advisory will be issued at 11:00 AM tomorrow.
