TROPICAL CYCLONE ADVISORY NR. 3

Tropical Storm "PULASAN"

Issued at 11:00 AM, 16 September 2024

Valid for broadcast until the next bulletin at 11:00 PM today.

GENERAL OUTLOOK FOR THE FORECAST PERIOD

Refer to Weather Advisory No. 19 issued at 5:00 AM today for the heavy rainfall outlook due to the Southwest Monsoon enhanced by PULASAN and Tropical Depression GENER.

Track and Intensity Outlook

- PULASAN is forecast to move generally northwestward at a fast speed and may enter the Philippine Area of Responsibility tomorrow (17 September) evening or Wednesday (18 September) early morning. On the track forecast, PULASAN will remain far from the Philippine landmass and will likely remain within the PAR region until Wednesday late morning. After existing the PAR region, the tropical cyclone will move west northwestward towards the Ryukyu Islands and the East China Sea.
- PULASAN is forecast to remain a tropical storm until Wednesday afternoon. Intensification into a severe tropical storm may take place over the East China Sea on Wednesday evening.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to continue monitoring for updates related to this tropical cyclone.

Unless there is an intermediate issuance, the next tropical cyclone advisory will be issued at 11:00 PM today.
