

SEVERE WEATHER BULLETIN #11-FINAL

FOR: LOW PRESSURE AREA (FORMERLY "CRISING")

TROPICAL CYCLONE: ALERT

ISSUED AT 11:00 AM, 14 May 2021

"CRISING" WEAKENS INTO A LOW PRESSURE AREA.

- "CRISING" weakened into a Low Pressure Area at 8:00 AM today. This LPA will continue moving westward or west northwestward and emerge over the Sulu Sea in the next 6 to 12 hours.
- All Tropical Cyclone Wind Signals are hereby lifted.**

Hazards affecting land areas

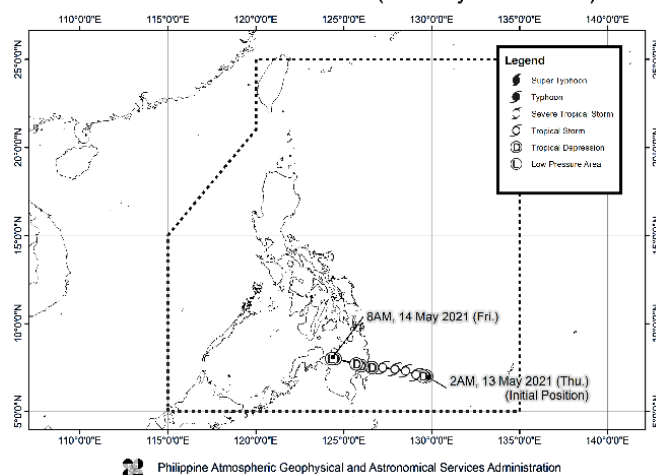

Heavy Rainfall:

- Today, light to moderate with at times heavy rains may be experienced over Zamboanga Peninsula, Davao Oriental, Davao de Oro, Davao del Norte, Davao City, Davao del Sur, Cotabato, Maguindanao, Bukidnon, Lanao del Norte, Lanao del Sur, and Misamis Occidental.
- Under these conditions, isolated flash flooding and rain-induced landslides are possible during heavy or prolonged rainfall especially in areas that are highly or very highly susceptible to these hazards as identified in hazard maps. Adjacent or nearby areas may also experience flooding in the absence of such rainfall occurrence due to surface runoff or swelling of river channels.
- PAGASA Regional Services Divisions may issue local thunderstorm/rainfall advisories and heavy rainfall warnings while the Hydrometeorology Division and River Basin Flood Forecasting and Warning Centers may issue General Flood Advisories and Basin Flood Bulletins as appropriate.

Location of eye/center

At 10:00 AM today, the center of **Low Pressure Area (formerly "CRISING")** was estimated based on all available data in the vicinity of **Piagapo, Lanao del Sur (8.0°N, 124.2°E)**.

Track of Low Pressure Area (formerly "CRISING")

Philippine Atmospheric Geophysical and Astronomical Services Administration

With this development and unless re-intensification occurs, this is the final weather bulletin for this weather disturbance.
