TROPICAL CYCLONE BULLETIN NR. 1

Tropical Depression KIKO

Issued at 11:00 AM, 03 September 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

OTHER HAZARDS AFFECTING LAND AREAS

KIKO is unlikely to directly affect the country throughout the forecast period.

HAZARDS AFFECTING COASTAL WATERS

KIKO is unlikely to affect the sea condition in the coastal waters of the country.

TRACK AND INTENSITY OUTLOOK

- Tropical Depression KIKO will move generally northward or north northwestward in the next 24 hours towards southern Japan. KIKO is forecast to accelerate and exit the Philippine Area of Responsibility this afternoon.
- KIKO is forecast to intensify into tropical storm tonight or tomorrow (04 September) early morning.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.
