

TROPICAL CYCLONE BULLETIN NR. 1

Tropical Depression NANDO

Issued at 11:00 PM, 17 September 2025

Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

THE TROPICAL DEPRESSION HAS ENTERED THE PHILIPPINE AREA OF RESPONSIBILITY AND WAS NAMED "NANDO".

Location of Center (10:00 PM)

The center of Tropical Depression NANDO was estimated based on all available data at **1,140 km East of Southeastern Luzon (14.5°N, 134.7°E)**.

Intensity

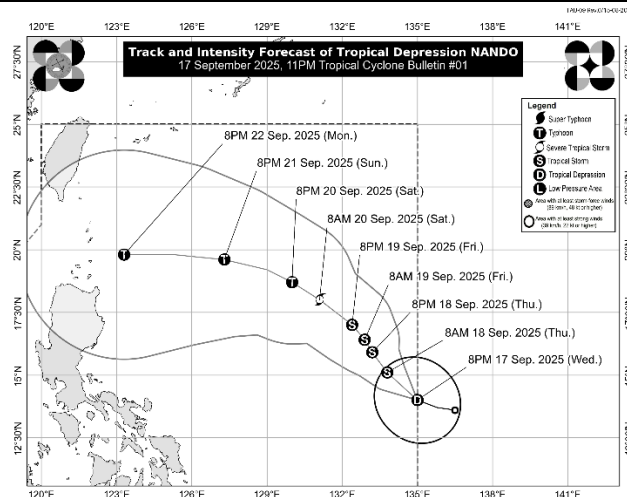

Maximum sustained winds of **55 km/h** near the center, gustiness of up to **70 km/h**, and central pressure of **1006 hPa**

Present Movement

West northwestward at 15 km/h

Extent of Tropical Cyclone Winds

Strong winds extend outwards up to **200 km** from the center

TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)

TROPICAL CYCLONE BULLETIN NR. 1

Tropical Depression NANDO

Issued at 11:00 PM, 17 September 2025

Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT

No Wind Signal currently hoisted.

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

NANDO is less likely to directly affect the weather in the next 48 hours. Onset of **heavy rains due to the Southwest Monsoon and NANDO is possible by Sunday (21 September) or Monday (22 September).**

Severe Winds

NANDO may potentially enhance the Southwest Monsoon as it approaches the landmass. **Wind Signal No. 1 will be hoisted over Northern Luzon as early as Saturday (20 September), and the highest Wind Signal that may be hoisted throughout its passage is Wind Signal No. 5 considering that this tropical cyclone may reach super typhoon category.**

The Southwest Monsoon will bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today:** The southern portion of Quezon, Camarines Norte, Camarines Sur, and MIMAROPA.
- **Tomorrow (18 September):** Metro Manila, Isabela, Cagayan including Babuyan Islands, Batanes, Ilocos Region, Zambales, Bataan, Cavite, Quezon, Bicol Region, MIMAROPA, and Western Visayas.
- **Friday (19 September):** Ilocos Region, Zambales, and Bataan.

HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

Up to moderate to rough seas over the following coastal waters:

- **Up to 2.5 m:** The western seaboard of Batanes and Babuyan Islands.
- **Up to 2.0 m:** The remaining seaboard of Batanes and Babuyan Islands; the seaboard of mainland Cagayan, Isabela, Ilocos Norte, and Ilocos Sur.
- **Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

TROPICAL CYCLONE BULLETIN NR. 1

Tropical Depression NANDO

Issued at 11:00 PM, 17 September 2025

Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

TRACK AND INTENSITY OUTLOOK

- NANDO has entered the Philippine Area of Responsibility and is forecast to move generally northwestward over the Philippine Sea. Afterwards, it will turn west northwestward by Sunday (21 September) towards Extreme Northern Luzon.
- NANDO will continue to intensify while over the Philippine Sea and may reach typhoon category by Saturday (20 September). Further intensification into super typhoon category is not ruled out.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 AM tomorrow.
