OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to Weather Advisory No. 24 issued at 11:00 AM today for the heavy rainfall outlook due to Tropical Cyclone OPONG and the Southwest Monsoon.

Severe Winds

The wind signals warn the public of the **general wind threat** over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Moderate to significant impacts** from storm-force winds are possible within any of the areas under Wind Signal No 3.
- **Minor to moderate impacts** from gale-force winds are possible within any of the areas under Wind Signal No. 2.
- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

The highest Wind Signal that may be hoisted throughout the passage of OPONG is **Wind Signal No. 4**.

The Southwest Monsoon enhanced OPONG, will bring **strong to gale-force gusts** over the following areas **not under Wind Signal** (especially in coastal and upland areas exposed to winds):

- **Today:** Ilocos Region, Cagayan Valley, Palawan, Visayas, Zamboanga del Norte, Misamis Occidental, Misamis Oriental, Camiguin, Caraga Region, and Davao Region.
- **Tomorrow (26 September):** Ilocos Region, Cordillera Administrative Region, Cagayan Valley, Palawan, Visayas, Zamboanga del Norte, Misamis Occidental, Misamis Oriental, Camiguin, Caraga Region, and Davao Region.
- **Saturday (27 September):** Luzon and Western Visayas.

Severe Tropical Storm OPONG (BUALOI)

Issued at 2:00 PM, 25 September 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is in effect over the eastern seaboard of Southern Luzon and Visayas. Refer to Gale Warning No. 1 issued at 8:00 AM today.

24-Hour Sea Condition Outlook

Up to very rough, high, or very high over the following coastal waters:

- **Up to 11.0 m:** The seaboard of Catanduanes; the eastern seaboard of Albay and Sorsogon; the northern and eastern seaboard of Northern Samar and Eastern Samar.
- **Up to 6.0 m:** The northern and eastern seaboard of Camarines Norte and Camarines Sur.
- **Up to 5.0 m:** The seaboard of Quezon, Marinduque, and Romblon; the remaining seaboard of Bicol Region, Northern Samar, and Eastern Samar.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The seaboard of Isabela, Aurora, Batangas, Oriental Mindoro, Samar, and Biliran; the northern seaboard of Leyte and Occidental Mindoro including Lubang Island; the eastern seaboard of Dinagat Islands.
- **Up to 3.5 m:** The eastern seaboard of Cagayan including Babuyan Islands; the northern seaboard of Aklan and Capiz; the remaining seaboard Dinagat Islands.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The seaboard of Palawan and Surigao del Norte; the remaining seaboard of Occidental Mindoro, Visayas, and Dinagat Islands.
- **Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Coastal Inundation

There is **high risk of life-threatening storm surge** with peak heights **exceeding 3.0 m** within 36 hours over the low-lying or exposed coastal localities of Metro Manila, Central Luzon, CALABARZON, Occidental Mindoro including Lubang Island, Oriental Mindoro, Marinduque, Romblon, Bicol Region, Northern Samar, Eastern Samar, Samar, Biliran, Leyte, and Cebu. **Refer to Storm Surge Warning No. 5 issued at 2:00 PM today for the details.**

TROPICAL CYCLONE BULLETIN NR. 10
Severe Tropical Storm OPONG (BUALOI)

Issued at 2:00 PM, 25 September 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

TRACK AND INTENSITY OUTLOOK

- It must be emphasized that heavy rainfall, severe winds, and storm surge may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to the hoisted Wind Signals (for direct wind threat of the tropical cyclone) and "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift more to the north or to the south but within the limit of the forecast confidence cone.
- OPONG will continue moving generally west northwestward while approaching Eastern Visayas – Southern Luzon area. On the forecast track, it may pass close to or make landfall over Northern Samar tomorrow (26 September) early morning, then Bicol Region by tomorrow morning or early afternoon. It will then cross Southern Luzon throughout tomorrow. Afterwards, OPONG will emerge over the West Philippine Sea and exit the Philippine Area of Responsibility on Saturday (27 September) afternoon or evening.
- OPONG may reach typhoon category before making landfall over Bicol Region. It will then weaken as it crosses the archipelago, although it will likely remain as a typhoon or severe tropical storm during the passage. Re-intensification is highly likely once OPONG emerges over the West Philippine Sea.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.
