

## TROPICAL CYCLONE BULLETIN NR. 25

### Typhoon TINO (KALMAEGI)

Issued at 5:00 AM, 06 November 2025

Valid for broadcast until the next bulletin at 11:00 AM today.

#### “TINO” FURTHER INTENSIFIES AS IT MOVES OVER THE WEST PHILIPPINE SEA NORTH OF KALAYAAN ISLANDS.

##### Location of Center (4:00 AM)

The center of the eye of Typhoon TINO was estimated based on all available data at **265 km North Northwest of Pag-asa Island, Kalayaan, Palawan (OUTSIDE PAR)** (13.3°N, 113.5°E).

##### Intensity

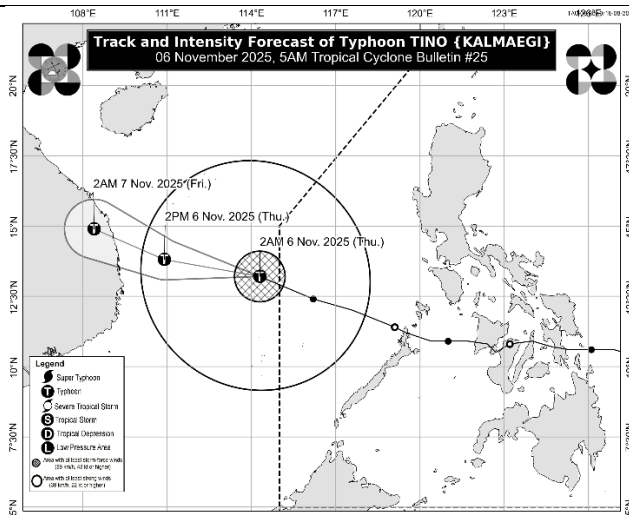

Maximum sustained winds of **155 km/h** near the center, gustiness of up to **190 km/h**, and central pressure of **960 hPa**

##### Present Movement

**West northwestward at 35 km/h**

##### Extent of Tropical Cyclone Winds

**Strong to typhoon-force winds** extend outwards up to **480 km** from the center

#### TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	
<b>12-Hour Forecast</b> 2:00 PM 06 November 2025	13.8	110.9	480 km Northwest of Pag-asa Island, Kalayaan, Palawan (OUTSIDE PAR)	150	TY	W 30
<b>24-Hour Forecast</b> 2:00 AM 07 November 2025	14.9	108.4	770 km Northwest of Pag-asa Island, Kalayaan, Palawan (OUTSIDE PAR)	130	TY	WNW 25

#### TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT

TCWS No.	Luzon	Visayas	Mindanao
<b>1</b> Wind threat: <b>Strong winds</b>	<b>Kalayaan Islands</b> Warning lead time: <b>36 hours</b> Range of wind speeds: <b>39 to 61 km/h (Beaufort 6 to 7)</b> Potential impacts of winds: <b>Minimal to minor threat to life and property</b>	-	-

## TROPICAL CYCLONE BULLETIN NR. 25

### Typhoon TINO (KALMAEGI)

Issued at 5:00 AM, 06 November 2025

Valid for broadcast until the next bulletin at 11:00 AM today.

#### OTHER HAZARDS AFFECTING LAND AREAS

##### Severe Winds

The wind signals warn the public of the **general wind threat** over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

Furthermore, the weakening surge of the Northeast Monsoon and the outer rainbands of TINO will also bring **strong wind gusts** over the following areas **not under Wind Signal** (especially in coastal and upland areas exposed to winds):

- **Today:** Batanes, Babuyan Islands, Ilocos Norte, Pangasinan, Zambales, Bataan, Cavite, Batangas, Occidental Mindoro, Oriental Mindoro, Romblon, Palawan, and Antique.

#### HAZARDS AFFECTING COASTAL WATERS

##### 24-Hour Sea Condition Outlook

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The northern seaboards of Kalayaan Islands.
- **Up to 3.0 m:** The western seaboards of Palawan including Calamian Islands; the seaboards of Batanes and Ilocos Norte; the western seaboard of Babuyan Islands.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The remaining seaboards of Cagayan; the western seaboards of Pangasinan, Zambales, and Bataan; the northwestern seaboard of Occidental Mindoro including Lubang Islands.
- **Up to 2.0 m:** The remaining seaboards of Ilocos Region and Occidental Mindoro; the northern and eastern seaboards of Polillo Islands, Catanduanes, and Northern Samar; the seaboards of Isabela, Aurora, and Eastern Samar; the northern seaboards of Camarines Sur and Camarines Norte; the eastern seaboards of Albay, Sorsogon, Caraga, and Davao Region; the eastern seaboards of mainland Palawan including Cagayancillo Islands; the western seaboard of Antique.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

## TROPICAL CYCLONE BULLETIN NR. 25

### Typhoon TINO (KALMAEGI)

Issued at 5:00 AM, 06 November 2025

Valid for broadcast until the next bulletin at 11:00 AM today.

#### TRACK AND INTENSITY OUTLOOK

- **Severe winds may still be experienced in localities outside the forecast confidence cone. Refer to hoisted Wind Signals and the “Other Hazards affecting Land Areas” section for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- **At 12:30 AM today, TINO has exited the Philippine Area of Responsibility.** On the forecast track, TINO will move generally west northwestward towards Central Vietnam.
- Due to marginally favorable conditions, TINO will slightly weaken prior to its landfall over Central Vietnam within the next 24 hours. Upon landfall, it will then rapidly weaken further due to interaction with the terrain.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 AM today.

**DOST-PAGASA**
