TROPICAL CYCLONE ADVISORY NR. 1

Tropical Depression

Issued at 11:00 AM, 17 September 2025

Valid for broadcast until the next bulletin at 11:00 PM today.

GENERAL OUTLOOK FOR THE FORECAST PERIOD

- The tropical depression (TD) is forecast to move generally northwestward and will enter the PAR between late evening today and tomorrow morning (18 September). Once inside the PAR, the TD will be given a local name NANDO. While moving northwestward over the Philippine Sea, it will turn west northwestward by Sunday (21 September) towards the Extreme Northern Luzon.
- NANDO will continue to intensify while over the Philippine Sea and may reach typhoon category by Monday (22 September). Further intensification is not ruled out. Based on the intensity forecast, **hoisting of Wind Signal No. 4 over some portions of Northern Luzon** is possible.
- The tropical depression outside PAR is less likely to directly affect the weather and sea condition in the next 48 hours. **Wind Signal No. 1 will be hoisted over Northern Luzon as early as Saturday (20 September).** Onset of **heavy rains is possible by Sunday or Monday (15 September).**

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to continue monitoring for updates related to this tropical cyclone.

Unless there is an intermediate issuance, the next tropical cyclone advisory will be issued at 11:00 PM today.
