## TROPICAL CYCLONE ADVISORY NR. 6F

### Typhoon **BISING {DANAS}**

Issued at 5:00 PM, 06 July 2025

#### GENERAL OUTLOOK FOR THE FORECAST PERIOD

##### 24-Hour Sea Condition Outlook

**Up to rough seas** over the following coastal waters:

- **Up to 4.5 m:** The seaboard of Batanes.

**Moderate to rough seas** over the following coastal waters:

- **Up to 4.0 m:** The western and northern seaboards of Babuyan Islands.
- **Up to 3.0 m:** The western seaboard of Ilocos Norte.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

**Up to moderate seas** over the following coastal waters:

- **Up to 2.5 m:** The remaining seaboards of Ilocos Region and the seaboard of Zambales.
- **Up to 2.0 m:** The seaboards of Bataan and Lubang Islands.
- **Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

##### Track and Intensity Outlook

- BISING is forecast to move northeastward over the next 36 hours and may enter the northwestern boundary of PAR tonight. It will exit the northern boundary of PAR by tomorrow (07 July) morning.
- BISING is forecast to steadily intensify over the next 12 hours. A weakening trend is expected over the East China Sea due to unfavorable conditions. It may weaken into a remnant low by Thursday (10 July) as it interacts with the landmass of China.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to continue monitoring for updates related to this tropical cyclone.

With this development, this is the final tropical cyclone advisory. **Further updates will be provided in the tropical cyclone bulletins for BISING.**
