

# TROPICAL CYCLONE BULLETIN NR. 14

## Tropical Storm RAMIL (FENGSHEN)

Issued at 2:00 AM, 19 October 2025

Valid for broadcast until the next bulletin at 5:00 AM today.

### RAMIL MAINTAINS ITS STRENGTH AND IS NOW OVER TAGKAWAYAN, QUEZON.

#### Location of Center (1:00 AM)

The center of Tropical Storm RAMIL was estimated based on all available data in the vicinity of Tagkawayan, Quezon (14.0°N, 122.7°E).

#### Intensity

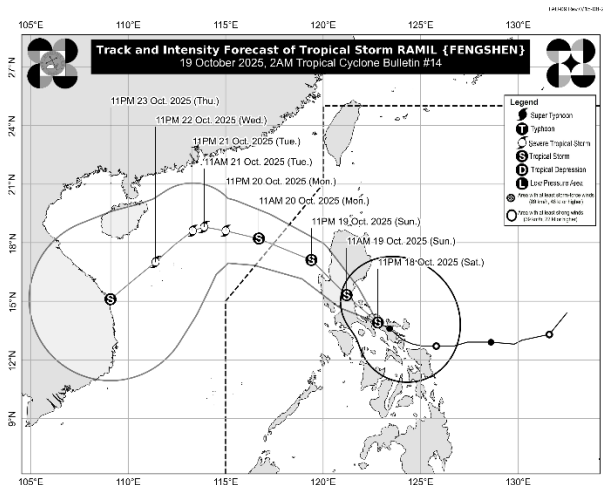

Maximum sustained winds of **65 km/h** near the center, gustiness of up to **110 km/h**, and central pressure of **1000 hPa**

#### Present Movement

**West northwestward at 30 km/h**

#### Extent of Tropical Cyclone Winds

**Strong to gale-force winds** extend outwards up to **430 km** from the center

## TROPICAL CYCLONE BULLETIN NR. 14

### Tropical Storm RAMIL (FENGSHEN)

Issued at 2:00 AM, 19 October 2025

Valid for broadcast until the next bulletin at 5:00 AM today.

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT			
TCWS No.	Luzon	Visayas	Mindanao
<b>2</b> Wind threat: <b>Gale-force winds</b>	<b>The southeastern portion of Isabela (Dinapigue), the southeastern portion of Quirino (Nagtipunan, Maddela, Aglipay), , the central and southern portions of Nueva Vizcaya (Alfonso Castañeda, Dupax del Sur, Dupax del Norte, Bambang, Aritao, Kayapa, Santa Fe, Kasibu), the central and southern portions of Benguet (Itogon, Bokod, Atok, Kapangan, Tublay, La Trinidad, Baguio City, Tuba, Sablan), the central and southern portions of La Union (Rosario, Pugo, Tubao, Santo Tomas, Agoo, Aringay, Caba, Naguilian, Burgos, Bagulin, Bauang, City of San Fernando, San Juan, San Gabriel, Bacnotan, Santol, Balaoan, Luna), the eastern portion of Pangasinan (San Nicolas, Natividad, San Quintin, Umingan, Balungao, Santa Maria, Tayug, San Manuel, Asingan, Sison, Pozorrubio, Binalonan, San Fabian, San Jacinto, Laoac, Manaoag, City of Urdaneta, Rosales, Villasis), Aurora, the eastern portion of Nueva Ecija (Talavera, Rizal, Laur, Llanera, Pantabangan, Science City of Muñoz, Palayan City, Gabaldon, General Mamerto Natividad, Carranglan, General Tinio, San Jose City, Lupao, Bongabon, Talugtug), the eastern portion of Bulacan (Doña Remedios Trinidad, Norzagaray), the northern and eastern portions of Quezon (General Nakar, Calauag, Tagkawayan, Guinayangan, Quezon, Alabat, Perez, Mauban, Real, Infanta) including Polillo Islands , Camarines Norte, and the northwestern portion of Camarines Sur (Del Gallego, Ragay, Lupi, Sipocot)</b>	-	-
Warning lead time: <b>24 hours</b> Range of wind speeds: <b>62 to 88 km/h (Beaufort 8 to 9)</b> Potential impacts of winds: <b>Minor to moderate threat to life and property</b>			
<b>1</b> Wind threat: <b>Strong winds</b>	<b>Cagayan including Babuyan Islands, the rest of Isabela, the rest of Quirino, the rest of Nueva Vizcaya, Apayao, Abra, Kalinga, Mountain Province, Ifugao, the rest of Benguet, Ilocos Norte, Ilocos Sur, the rest of La Union, the rest of Pangasinan, the rest of Nueva Ecija, the rest of Bulacan , Tarlac, Pampanga, the northern and central portions of Zambales (Santa Cruz, Candelaria, Masinloc, Palauig, Iba, Botolan, Cabangan), Metro Manila, the rest of Quezon, Rizal, Laguna, Marinduque, the rest of Camarines Sur, Catanduanes, Albay, Sorsogon, Burias Island, and Ticao Island</b>	<b>Northern Samar, the northern portion of Eastern Samar (Jipapad, San Policarpo, Oras, Arteche, Maslog), and the northern portion of Samar (Matuguinao, Calbayog City, Gandara, Santa Margarita, Pagsanghan, Tagapul-An, Almagro, Santo Niño, San Jose de Buan)</b>	-
Warning lead time: <b>36 hours</b> Range of wind speeds: <b>39 to 61 km/h (Beaufort 6 to 7)</b> Potential impacts of winds: <b>Minimal to minor threat to life and property</b>			

## TROPICAL CYCLONE BULLETIN NR. 14

### Tropical Storm RAMIL (FENGSHEN)

Issued at 2:00 AM, 19 October 2025

Valid for broadcast until the next bulletin at 5:00 AM today.

#### OTHER HAZARDS AFFECTING LAND AREAS

##### Heavy Rainfall Outlook

Refer to Weather Advisory No. 8 issued at 11:00 PM yesterday for the heavy rainfall outlook due to RAMIL.

##### Severe Winds

The wind signals warn the public of the **general wind threat** over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minor to moderate impacts** from gale-force winds are possible within any of the localities where Wind Signal No. 2 is hoisted
- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

Furthermore, the trough and outer rainbands of RAMIL and the easterlies will also bring **strong to gale-force gusts** over the following areas **not under Wind Signal** (especially in coastal and upland areas exposed to winds):

- **Today:** Cagayan Valley, CALABARZON, Occidental Mindoro, Oriental Mindoro, Masbate, Caluya Islands, Samar, Eastern Samar, and Biliran
- **Tomorrow (20 October):** Central Luzon, Metro Manila, CALABARZON, Marinduque, Camarines Norte, Camarines Sur, and Catanduanes.

##### Coastal Inundation

There is a **minimal to moderate risk of storm surge** with peak heights of **1.0 to 2.0 m** within 36 hours over the low-lying or exposed coastal localities of Isabela, Ilocos Norte, Ilocos Sur, La Union, Pangasinan, Zambales, Aurora, Quezon, Marinduque, Camarines Norte, Camarines Sur, Catanduanes, Albay, and Masbate. **Refer to Storm Surge Warning No. 8 issued at 2:00 AM today for the details.**

## TROPICAL CYCLONE BULLETIN NR. 14

### Tropical Storm RAMIL (FENGSHEN)

Issued at 2:00 AM, 19 October 2025

Valid for broadcast until the next bulletin at 5:00 AM today.

#### HAZARDS AFFECTING COASTAL WATERS

**Gale Warning is in effect over the eastern seaboard of Southern Luzon.** Refer to Gale Warning No. 3A issued at 11:00 PM yesterday.

#### 24-Hour Sea Condition Outlook

##### **Up to very rough seas over the following coastal waters:**

- **Up to 4.5 m:** The seaboard of Isabela, Camarines Norte, and Polillo Islands; the northern seaboard of Camarines Sur; the northern and eastern seaboard of Catanduanes.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

##### **Up to rough seas over the following coastal waters:**

- **Up to 4.0 m:** The eastern seaboard of mainland Cagayan; the seaboard of the northern portion of Aurora.
- **Up to 3.5 m:** The seaboard of Ilocos Norte and Ilocos Sur; the eastern seaboard of Babuyan Islands, the northern portion of mainland Quezon, Albay, and Sorsogon; the northern and eastern seaboard of Northern Samar.
- **Up to 3.0 m:** The seaboard of Batanes; the remaining seaboard of mainland Cagayan and Babuyan Islands;
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

##### **Up to moderate seas over the following coastal waters:**

- **Up to 2.5 m:** The seaboard of La Union; the western seaboard of Pangasinan; the eastern seaboard of Eastern Samar and the rest of Quezon.
- **Up to 2.0 m:** The seaboard of Marinduque; the eastern seaboard of Dinagat Islands; the western seaboard of Northern Samar; remaining seaboard of Bicol Region and Quezon.

**Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

## TROPICAL CYCLONE BULLETIN NR. 14

### Tropical Storm RAMIL (FENGSHEN)

Issued at 2:00 AM, 19 October 2025

Valid for broadcast until the next bulletin at 5:00 AM today.

#### TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall, severe winds, and storm surge may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to “Other Hazards affecting Land Areas” for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- On the forecast track, RAMIL will continue moving northwestward or west northwestward over the landmass of Bicol Region and will emerge over the waters near Polillo Islands early morning today. Afterwards, it will pass close or over Polillo Islands, then make a final landfall in the vicinity of Aurora or northern Quezon this morning or early afternoon. The possibility of landfall over southern Isabela instead of Aurora or northern Quezon is also not ruled out based on the forecast confidence cone.
- After making landfall, RAMIL will traverse the mountainous terrain of Northern Luzon and emerge over the coastal waters of Pangasinan or La Union tonight. It will exit the Philippine Area of Responsibility (PAR) tomorrow (20 October) morning.
- Slightly intensification is not ruled out prior to its landfall over Aurora or northern Quezon. During its passage over the landmass, RAMIL is expected to maintain strength or slightly weaken due to frictional effects of mountainous terrain. Once over the West Philippine Sea, further re-intensification is highly likely, with RAMIL expected to reach severe tropical storm category while outside the PAR Region.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 AM today.
