TROPICAL CYCLONE BULLETIN NR. 2

Tropical Storm EMONG

Issued at 5:00 PM, 23 July 2025

Valid for broadcast until the next bulletin at 11:00 PM today.

HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is in effect over the western seaboard of Northern Luzon. Refer to Gale Warning No. 1 issued at 5:00 PM today.

24-Hour Sea Condition Outlook

Up to very rough seas over the following coastal waters:

- **Up to 6.0 m:** The western seaboard of Pangasinan.
- **Up to 4.5 m:** The western seaboard of Zambales and Bataan.
- **Sea travel is risky all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The seaboard of Lubang Island.
- **Up to 3.5 m:** The western seaboard of Ilocos Sur, La Union, Cavite, Batangas, Occidental Mindoro, and Calamian Islands.
- **Up to 3.0 m:** The seaboard of Batanes, Marinduque, and Kalayaan Islands; the western seaboard of Babuyan Island; the southern seaboard of Quezon; the eastern seaboard of Oriental Mindoro; the northern and western seaboard of Romblon.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The remaining seaboard of Babuyan Islands, Bataan, Cavite, and Calamian Islands; the seaboard of Isabela, Pampanga, Bulacan, Metro Manila, and Surigao del Sur; the western seaboard of Bicol Region, mainland Palawan, and Antique; the eastern seaboard of Davao Oriental.
- **Up to 2.0 m:** The seaboard of mainland Cagayan, Aurora, Aklan, and Northern Samar; the remaining seaboard of Bicol Region, Batangas, Occidental Mindoro, Oriental Mindoro, Romblon, and Palawan; the southwestern seaboard of Negros Occidental and Iloilo; the western seaboard of Guimaras.
- **Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

TRACK AND INTENSITY OUTLOOK

- EMONG is forecast to move generally southwestward tonight before looping over the West Philippine Sea tomorrow morning through afternoon (24 July) due to its interaction with Tropical Storm DANTE. Afterwards, it will move generally northeastward while accelerating. On the track forecast, **EMONG will make landfall over Ilocos Sur, La Union, or Pangasinan tomorrow evening or on Friday (25 July) early morning.** This tropical cyclone will emerge over the Luzon Strait on Friday afternoon after crossing the mountainous terrain of Northern Luzon.
- EMONG is forecast to continuously intensify and may reach severe tropical storm category before making landfall on Friday. Its passage over Northern Luzon will weaken EMONG into a tropical storm.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 PM today.
