

## TROPICAL CYCLONE BULLETIN NR. 13

### Typhoon EMONG (CO-MAY)

Issued at 5:00 AM, 25 July 2025

Valid for broadcast until the next bulletin at 8:00 AM today.

#### TYPHOON "EMONG" ACCELERATES AND IS ABOUT TO MAKE LANDFALL IN ILOCOS SUR OR THE NORTHERN PORTION OF LA UNION

##### Location of Center (4:00 AM)

The center of **Typhoon EMONG** was estimated based on all available data over the coastal waters of Bangar, La Union (**16.9°N, 120.3°E**).

##### Intensity

Maximum sustained winds of **120 km/h** near the center, gustiness of up to **165 km/h**, and central pressure of **975 hPa**.

##### Present Movement

**Northeastward at 20 km/h**

##### Extent of Tropical Cyclone Winds

**Strong to typhoon-force winds** extend outwards up to **260 km** from the center

#### TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)

## TROPICAL CYCLONE BULLETIN NR. 13

### Typhoon EMONG (CO-MAY)

Issued at 5:00 AM, 25 July 2025

Valid for broadcast until the next bulletin at 8:00 AM today.

#### OTHER HAZARDS AFFECTING LAND AREAS

##### Heavy Rainfall Outlook

Refer to **Weather Advisory No. 39 issued at 5:00 AM today** for the heavy rainfall outlook due to EMONG and the Southwest Monsoon enhanced by DANTE and EMONG.

##### Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Significant to severe impacts** from typhoon-force winds are possible within any of the localities where Wind Signal No. 4 is hoisted.
- **Moderate to significant impacts** from storm-force winds are possible within any of the localities where Wind Signal No. 3 is hoisted.
- **Minor to moderate impacts** from gale-force winds are possible within any of the localities where Wind Signal No. 2 is hoisted.
- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

The enhanced Southwest Monsoon will bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today:** Central Luzon (areas not under Wind Signal), Metro Manila, CALABARZON, Bicol Region, MIMAROPA, Visayas, Zamboanga del Norte, Misamis Occidental, Lanao del Norte, Camiguin, Dinagat Islands, and Davao Oriental.
- **Tomorrow (26 July):** Ilocos Region, Cordillera Administrative Region, Cagayan Valley (areas not under Wind Signal), Central Luzon, Metro Manila, CALABARZON, Bicol Region, MIMAROPA, Visayas, Zamboanga del Norte, Misamis Occidental, and Lanao del Norte
- **Sunday (27 July):** Ilocos Region, Cordillera Administrative Region, Cagayan Valley, Central Luzon, Metro Manila, Bicol Region, MIMAROPA, and Visayas.

##### Coastal Inundation

There is a **moderate to high risk of life-threatening storm surge** with peak heights reaching **1.0 to 3.0 m** within 24 hours over the low-lying or exposed coastal localities of Batanes, Babuyan Islands, mainland Cagayan, Isabela, Ilocos Norte, Ilocos Sur, La Union, Pangasinan, and Zambales. Refer to **Storm Surge Warning No. 6 issued at 2:00 AM today for the details.**

## TROPICAL CYCLONE BULLETIN NR. 13

### Typhoon EMONG (CO-MAY)

Issued at 5:00 AM, 25 July 2025

Valid for broadcast until the next bulletin at 8:00 AM today.

#### HAZARDS AFFECTING COASTAL WATERS

**A Gale Warning is in effect over the seabards of Northern Luzon and the western seabards of Central and Southern Luzon.**  
Refer to Gale Warning No. 5 issued at 5:00 AM today.

##### 24-Hour Sea Condition Outlook

Forecast wave heights are not related to storm surge heights.

##### **Up to very high seas over the following coastal waters:**

- **Up to 14.0 m:** The western seabards of Ilocos Sur, La Union, and Pangasinan
- **Up to 8.0 m:** The western seaboard of Zambales; the remaining seaboard of Pangasinan.
- **Up to 6.0 m:** The western seaboard of Bataan.
- **Up to 4.5 m:** The western seabards of Batangas, Lubang Islands, and Occidental Mindoro; the eastern seabards of mainland Cagayan and Isabela
- **Sea travel is risky all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

##### **Up to rough seas over the following coastal waters:**

- **Up to 3.5 m:** The western seabards of Palawan including Calamian Islands; the northeastern seaboard of Aurora; the eastern seabards of Babuyan Islands
- **Up to 3.0 m:** The seabards of Batanes, Marinduque, and Kalayaan Islands; the remaining seabards of Babuyan Islands and Bataan; the southern seaboard of Quezon; the eastern seaboard of Oriental Mindoro; the northern and western seabards of Romblon and Ilocos Norte;
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

##### **Up to moderate seas over the following coastal waters:**

- **Up to 2.5 m:** The remaining seabards of mainland Cagayan, Aurora, Calamian Islands, and Cavite; the seabards of Pampanga, Bulacan, Metro Manila, and Surigao del Sur; the western seaboard of Antique; the eastern seabards of Catanduanes and Davao Oriental
- **Up to 2.0 m:** The seabards of Aklan, and Northern Samar; the remaining seabards of Bicol Region, Batangas, Quezon, Occidental Mindoro, Oriental Mindoro, Palawan, and Romblon; the southwestern seaboard of Negros Occidental and Iloilo; the western seaboard of Guimaras.
- **Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

#### TRACK AND INTENSITY OUTLOOK

- On the forecast track, the center of EMONG will make another landfall in Ilocos Sur or La Union this morning. Afterwards, it will cross the mountainous terrain of Northern Luzon and emerge over the Babuyan Channel before noon. EMONG will then move northeastward and pass close or over Babuyan Islands between this noon and afternoon. It may also pass near Batanes between this afternoon or evening.
- EMONG may maintain its strength as it makes its second landfall. A slight weakening prior to its second landfall due to increasing interaction with the terrain of northwestern Luzon is not ruled out. Nevertheless, the passage of EMONG will trigger a weakening trend, which is expected to continue for the rest of the forecast period.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 8:00 AM today.
