

## TROPICAL CYCLONE BULLETIN NR. 3

### Tropical Depression MIRASOL

Issued at 11:00 PM, 16 September 2025

Valid for broadcast until the next bulletin at 2:00 AM tomorrow.

#### "MIRASOL" IS MOVING WESTWARD WHILE APPROACHING ISABELA-AURORA AREA.

##### Location of Center (10:00 PM)

The center of Tropical Depression MIRASOL was estimated based on all available data including from Baler and Daet Doppler Weather Radars at **95 km East of Baler, Aurora or 65 km Southeast of Casiguran, Aurora (15.8°N, 122.5°E)**.

##### Intensity

Maximum sustained winds of **55 km/h** near the center, gustiness of up to **70 km/h**, and central pressure of **1006 hPa**

##### Present Movement

**Westward at 20 km/h**

##### Extent of Tropical Cyclone Winds

**Strong winds** extend outwards up to **200 km** from the center

#### TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)

## TROPICAL CYCLONE BULLETIN NR. 3

### Tropical Depression MIRASOL

Issued at 11:00 PM, 16 September 2025

Valid for broadcast until the next bulletin at 2:00 AM tomorrow.

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT			
TCWS No.	Luzon	Visayas	Mindanao
<b>1</b> Wind threat: <b>Strong winds</b>	<p><b>Batanes, Cagayan including Babuyan Islands, Isabela, Quirino, the northern and eastern portions of Nueva Vizcaya (Diadi, Quezon, Kasibu, Dupax del Norte, Bambang, Ambaguio, Bayombong, Solano, Villaverde, Bagabag, Alfonso Castañeda, Dupax del Sur), the northern and central portions of Aurora (Dilasag, Casiguran, Dinalungan, Dipaculao, Baler, Maria Aurora, San Luis), Apayao, Abra, Kalinga, Mountain Province, Ifugao, Ilocos Norte, the northern portion of Ilocos Sur (Sinait, Cabugao, San Juan, Magsingal, Santo Domingo, Bantay, San Vicente, San Ildefonso, Santa Catalina, City of Vigan, Caoayan, Santa), Polillo Islands, and the northern portion of Camarines Norte (Capalonga, Jose Panganiban, Paracale, Vinzons)</b></p> <p>Warning lead time: <b>36 hours</b>  Range of wind speeds: <b>39 to 61 km/h (Beaufort 6 to 7)</b>  Potential impacts of winds: <b>Minimal to minor threat to life and property</b></p>	-	-

## OTHER HAZARDS AFFECTING LAND AREAS

### Heavy Rainfall Outlook

Refer to Weather Advisory No. 3 issued at 11:00 PM today for the heavy rainfall outlook due to Tropical Cyclone MIRASOL.

### Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

Based on the intensity forecast, MIRASOL will likely intensify into a tropical storm when it re-emerges over the Luzon Strait. With this intensification, **hoisting of Wind Signal No. 2 is possible over some portions of Northern Luzon**.

The Southwest Monsoon will bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Tomorrow:** The southern portion of Quezon, the rest of Camarines Norte that is not under Wind Signal, Marinduque, Romblon, the southern portion of Mindoro provinces, and Panay Island.
- **Thursday (18 September):** Panay Island, Palawan, Mindoro Provinces, Marinduque, Romblon, the southern portion of Quezon, Camarines Norte, Isabela, Cagayan including Babuyan Islands, Batanes, Ilocos Norte, Ilocos Sur, La Union, and Pangasinan.
- **Friday (19 September):** Ilocos Norte, Ilocos Sur, La Union, Pangasinan, Zambales, and Bataan.

## TROPICAL CYCLONE BULLETIN NR. 3

### Tropical Depression MIRASOL

Issued at 11:00 PM, 16 September 2025

Valid for broadcast until the next bulletin at 2:00 AM tomorrow.

#### HAZARDS AFFECTING COASTAL WATERS

##### 24-Hour Sea Condition Outlook

###### **Up to moderate seas over the following coastal waters:**

- **Up to 2.5 m:** The seabards of Cagayan, Babuyan Islands, and Batanes; the seabards of Isabela and Aurora; the northern seaboard of Ilocos Norte.
- **Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

#### TRACK AND INTENSITY OUTLOOK

- Tropical Depression MIRASOL is forecast to move north northwestward while slightly decelerating as it approaches Isabela-Aurora area. On the forecast track, the center of MIRASOL may make landfall in Isabela or northern portion of Aurora by tomorrow (17 September) morning. However, a more north northwestward or northward movement will likely result to no landfall scenario and will just move over the coastal waters of Northern and Central Luzon. By tomorrow evening through Thursday (18 September) morning, MIRASOL will re-emerge over the Luzon Strait and will continue moving generally northwestward until it exits the Philippine Area of Responsibility between Thursday afternoon and evening.
- MIRASOL will maintain its strength or will slightly weaken as it crosses the Northern Luzon landmass. Once it is over the Luzon Strait, it is forecast to intensify and reach tropical storm category by Thursday morning. Outside PAR, MIRASOL will further intensify and may reach severe tropical storm category by Friday (19 September).

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 2:00 AM tomorrow.
