TROPICAL CYCLONE BULLETIN NR. 1

Tropical Depression FABIAN

Issued at 11:00 AM, 08 August 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

TRACK AND INTENSITY OUTLOOK

- FABIAN is forecast to move generally northwestward for the entire forecast period. It may exit the Philippine Area of Responsibility (PAR) tonight or tomorrow (09 August) early morning.
- FABIAN is forecast to maintain its strength until it weakens into a remnant low as it exits the PAR.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.
