

## TROPICAL CYCLONE BULLETIN NR. 15

### Typhoon TINO (KALMAEGI)

Issued at 2:00 PM, 04 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

#### "TINO" FURTHER WEAKENS AS IT DECELERATES OVER ILOILO STRAIT.

##### Location of Center (1:00 PM)

The center of the eye of Typhoon TINO was estimated based on all available data including those from Masbate and Iloilo Doppler Weather Radars **over the coastal waters of Jordan, Guimaras (10.6°N, 122.5°E)**.

##### Intensity

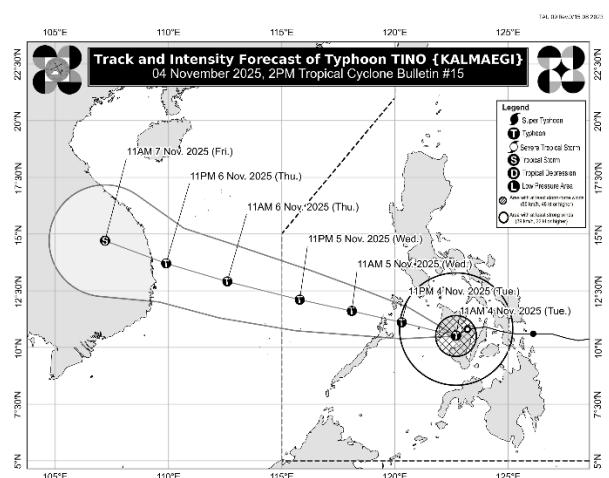

Maximum sustained winds of **130 km/h** near the center, gustiness of up to **180 km/h**, and central pressure of **970 hPa**

##### Present Movement

**West southwestward at 20 km/h**

##### Extent of Tropical Cyclone Winds

**Strong to typhoon-force winds** extend outwards up to **300 km** from the center

#### TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	
<b>12-Hour Forecast</b> 11:00 PM 04 November 2025	11.1	120.3	Over the coastal waters of Linapacan, Palawan	140	TY	WNW 25
<b>24-Hour Forecast</b> 11:00 AM 05 November 2025	11.6	118.1	235 km West of Coron, Palawan	150	TY	WNW 20
<b>36-Hour Forecast</b> 11:00 PM 05 November 2025	12.1	115.8	480 km West of Coron, Palawan	155	TY	WNW 20
<b>48-Hour Forecast</b> 11:00 AM 06 November 2025	12.9	112.6	830 km West of Southwestern Luzon (OUTSIDE PAR)	155	TY	WNW 30
<b>60-Hour Forecast</b> 11:00 PM 06 November 2025	13.7	109.9	1,220 km West of Southwestern Luzon (OUTSIDE PAR)	155	TY	WNW 25
<b>72-Hour Forecast</b> 11:00 AM 07 November 2025	14.7	107.2	1,425 km West of Central Luzon or in the vicinity of Ong Luang, Laos (OUTSIDE PAR)	85	TS	WNW 25

<b>1</b> Wind threat: <b>Strong winds</b>	<b>The southern portion of Quezon (San Francisco, San Andres), the southern portion of Marinduque (Torrijos, Buenavista, Gasan, Boac), the rest of Oriental Mindoro, the northern and central portions of Occidental Mindoro (Sablayan, Santa Cruz, Abra de Ilog, Mamburao, Paluan), the rest of Romblon, the and southern portion of Albay (Pio Duran, Jovellar, Libon, Oas, City of Ligao), the western and southern portions of Sorsogon (Magallanes, Santa Magdalena, Juban, Bulan, Irosin, Matnog, Pilar, Donsol, Castilla), the rest of Masbate including Burias and Ticao Islands, and the central portion of Palawan (Puerto Princesa City)</b>	<b>The western portion of Northern Samar (San Isidro, Victoria, Allen, Capul, San Vicente, San Antonio), the western portion of Samar (San Jorge, San Sebastian, Santa Rita, Villareal, Zumarraga, Pinabacdaao, Almagro, Calbayog City, Talalora, Jiabong, Pagsanghan, City of Catbalogan, Gandara, Motong, Santo Niño, Tagapulan, Santa Margarita, Tarangnan, Calbiga, Daram, Marabut, Paranas, Basey, Hinabangan), Biliran, Leyte, the northern and western portions of Southern Leyte (Libagon, Hinunangan, City of Maasin, Silago, Padre Burgos, Saint Bernard, Malitbog, Bontoc, Tomas Oppus, Macrohon, Limasawa, Sogod), the rest of Bohol, the rest of Negros Oriental, and Siquijor</b>	-
Warning lead time: <b>36 hours</b> Range of wind speeds: <b>39 to 61 km/h (Beaufort 6 to 7)</b> Potential impacts of winds: <b>Minimal to minor threat to life and property</b>			

## TROPICAL CYCLONE BULLETIN NR. 15

### Typhoon TINO (KALMAEGI)

Issued at 2:00 PM, 04 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

#### OTHER HAZARDS AFFECTING LAND AREAS

##### Heavy Rainfall Outlook

Refer to Weather Advisory No. 12 issued at 11:00 AM today for the heavy rainfall outlook due to the Shear Line and TINO.

##### Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Significant to severe impacts** from typhoon-force winds are possible within any of the areas under Wind Signal No. 4.
- **Moderate to significant impacts** from storm-force winds are possible within any of the areas under Wind Signal No 3.
- **Minor to moderate impacts** from gale-force winds are possible within any of the localities where Wind Signal No. 2 is hoisted
- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

Furthermore the surge of the Northeast Monsoon, shear line and the trough of TINO will also bring **strong to gale-force gusts** over the following areas **not under Wind Signal** (especially in coastal and upland areas exposed to winds):

- **Today:** Cagayan Valley, Cordillera Administrative Region, Ilocos Norte, Ilocos Sur, Central Luzon, Metro Manila, CALABARZON, MIMAROPA, Bicol Region, Sarangani, Davao Occidental, and Davao Oriental.
- **Tomorrow (05 November):** Cagayan Valley, Cordillera Administrative Region, Ilocos Region, Central Luzon, Metro Manila, CALABARZON, MIMAROPA, Bicol Region, Western Visayas, Negros Island Region, Central Visayas, Biliran, Leyte, and Zamboanga Peninsula.
- **Thursday (06 November):** Ilocos Region, Batanes, Cagayan including Babuyan Islands, most of Cordillera Administrative Region, Central Luzon, Metro Manila, CALABARZON, and MIMAROPA.

##### Coastal Flooding

There is a **high risk of life-threatening and damaging storm surge** with peak heights **exceeding 3.0 m** within the next 24 hours over the low-lying or exposed coastal communities of Romblon, Oriental Mindoro, Occidental Mindoro, Palawan, Western Visayas, and Occidental Mindoro. Refer to **Storm Surge Warning No. 9 issued at 2:00 PM today** for more details.

## TROPICAL CYCLONE BULLETIN NR. 15

### Typhoon TINO (KALMAEGI)

Issued at 2:00 PM, 04 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

#### HAZARDS AFFECTING COASTAL WATERS

**A Gale Warning is in effect over the eastern seaboard of Northern Luzon, the eastern and southern seaboards of Southern Luzon, the seaboards of Visayas, and the northern and eastern seaboards of Mindanao.** Refer to Gale Warning No. 4 issued at 5:00 AM today.

#### 24-Hour Sea Condition Outlook

##### **Up to very rough to high over the following coastal waters:**

- **Up to 6.0 m:** The seaboards of Calamian and Cuyo Islands.
- **Up to 5.0 m:** The seaboards of northern mainland Palawan, Antique, Iloilo, Aklan, Capiz, Guimaras, northern Negros Occidental, and northern Cebu.
- **Up to 4.5 m:** The seaboards of Isabela, Masbate, Kalayaan Islands, Leyte, Southern Leyte, and Bohol; the remaining seaboards of Cebu and Negros Occidental; the eastern seaboards of Mainland Cagayan, Negros Oriental; the northern and eastern seaboards of Polillo Islands, Camarines Norte, Camarines Sur, and Catanduanes; the southern seaboards of Romblon, Occidental Mindoro and Oriental Mindoro.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

##### **Up to rough seas over the following coastal waters:**

- **Up to 4.0 m:** The seaboards of Batanes, Babuyan Islands, Aurora, northern mainland Quezon, Cagayancillo Islands, Albay, Sorsogon, Northern Samar, Eastern Samar, Samar, Biliran, Dinagat Islands, and Surigao del Norte; the remaining seaboards of Camarines Sur, Catanduanes, and mainland Cagayan.
- **Up to 3.0 m:** The seaboards of Ilocos Region and Marinduque; the remaining seaboards of Occidental Mindoro, Oriental Mindoro, Quezon, and Negros Oriental; the western seaboard of mainland Palawan; the northern seaboards of Siquijor.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

##### **Up to moderate seas over the following coastal waters:**

- **Up to 2.5 m:** The seaboard of Northern Mindanao, Davao Region, and Zamboanga del Norte. The remaining seaboards of Palawan and Caraga Region.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

## TROPICAL CYCLONE BULLETIN NR. 15

### Typhoon TINO (KALMAEGI)

Issued at 2:00 PM, 04 November 2025

Valid for broadcast until the next bulletin at 5:00 PM today.

#### TRACK AND INTENSITY OUTLOOK

- Heavy rainfall, severe winds, and storm surge may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to hoisted Wind Signals and the “Other Hazards affecting Land Areas” section for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.
- After making landfall over Guimaras, TINO is forecast to continue traversing Western Visayas and northern Palawan until it emerges over the West Philippine Sea by tomorrow (05 November) morning. It will then exit the Philippine Area of Responsibility by tomorrow evening or Thursday (06 November) early morning.
- Due to interaction with the terrain, TINO slightly weakens while over the coastal waters of Western Visayas. However, TINO is expected to remain at typhoon category throughout its passage over the country and is forecast to re-intensify over the West Philippine Sea.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.
