OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to Weather Advisory No. 7 issued at 5:00 AM today for the heavy rainfall outlook due to the Southwest Monsoon.

Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minimal to minor impacts** from strong winds are also possible within any of the areas under Wind Signal No. 1.

The Southwest Monsoon slightly enhanced by ISANG will bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today:** Zambales, Bataan, Tarlac, Pampanga, Metro Manila, Cagayan Valley (areas not under Wind Signal), CALABARZON, MIMAROPA, Aurora, Camarines Norte, Camarines Sur, Catanduanes, Albay, Burias Island, Western Visayas, Negros Island Region, Central Visayas, Southern Leyte, Zamboanga del Norte, Dinagat Islands, Sarangani, Davao Occidental, Surigao del Norte, and Camiguin.
- **Tomorrow (24 August):** Kalayaan Islands.

TROPICAL CYCLONE BULLETIN NR. 6

Tropical Storm ISANG

Issued at 5:00 AM, 23 August 2025

Valid for broadcast until the next bulletin at 11:00 AM today.

HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

No Gale Warning hoisted at this time.

Up to rough seas over the following coastal waters:

- Up to 3.0 m: The seabards of Batanes and Cagayan.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- Up to 2.5 m: The seabards of Isabela, Ilocos Norte, Ilocos Sur, and La Union; the western seaboard of Pangasinan.
- Up to 2.0 m: The seaboard of Zambales; the western seabards of Bataan and Lubang Island.
- **Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

TRACK AND INTENSITY OUTLOOK

- Tropical Storm ISANG will continue moving westward throughout the forecast period and eventually exit the Philippine Area of Responsibility this morning.
- ISANG intensified into a tropical storm at 2:00 AM today. It will gradually intensify and may reach typhoon category while approaching the waters south of Hainan, China.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 AM today.
