

TROPICAL CYCLONE BULLETIN NR. 14

Typhoon OPONG (BUALOI)

Issued at 2:00 AM, 26 September 2025

Valid for broadcast until the next bulletin at 5:00 AM today.

OPOONG HAS MADE LANDFALL OVER SAN POLICARPO, EASTERN SAMAR AND IS NOW THREATENING EASTERN VISAYAS.

Location of Center (1:00 AM)

The center of Typhoon OPONG was estimated based on all available data including those from Guiuan and Laoang Doppler Weather Radar in the vicinity of Catubig, Northern Samar (**12.4°N, 125.0°E**).

Intensity

Maximum sustained winds of **120 km/h** near the center, gustiness of up to **165 km/h**, and central pressure of **975 hPa**.

Present Movement

West northwestward at 30 km/h

Extent of Tropical Cyclone Winds

Strong to typhoon-force winds extend outwards up to **460 km** from the center

Valid for broadcast until the next bulletin at 5:00 AM today.

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to Weather Advisory No. 26 issued at 11:00 PM yesterday for the heavy rainfall outlook due to Tropical Cyclone OPONG and the Southwest Monsoon.

Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Significant to severe impacts** from typhoon-force winds are possible within any of the areas under Wind Signal No. 4.
- **Moderate to significant impacts** from storm-force winds are possible within any of the areas under Wind Signal No 3.
- **Minor to moderate impacts** from gale-force winds are possible within any of the areas under Wind Signal No. 2.
- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

The Southwest Monsoon enhanced by OPONG, will bring **strong to gale-force gusts** over the following areas **not under Wind Signal** (especially in coastal and upland areas exposed to winds):

- **Today:** Ilocos Region, Cordillera Administrative Region, Cagayan Valley, Palawan, Visayas, Zamboanga del Norte, Misamis Occidental, Misamis Oriental, Camiguin, Caraga Region, and Davao Region.
- **Tomorrow (27 September):** Luzon and Western Visayas.

TROPICAL CYCLONE BULLETIN NR. 14

Typhoon OPONG (BUALOI)

Issued at 2:00 AM, 26 September 2025

Valid for broadcast until the next bulletin at 5:00 AM today.

HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is in effect over the eastern and southern seaboards of Southern Luzon and the eastern seaboard of Visayas. Refer to Gale Warning No. 2 issued at 5:00 PM yesterday.

24-Hour Sea Condition Outlook

Up to very rough, high, or very high over the following coastal waters:

- **Up to 11.0 m:** The seaboards of Eastern Samar, Northern Samar, Samar, Biliran, Masbate including Ticao and Burias Islands; the southern and eastern seaboards of Albay and Sorsogon.
- **Up to 8.0 m:** The seaboards of Romblon, Oriental Mindoro; the northern seaboards of Leyte, Cebu, Iloilo, Capiz, and Aklan.
- **Up to 6.0 m:** The remaining seaboards of Bicol Region; the southern seaboards of Quezon, Marinduque, and Batangas.
- **Up to 5.0 m:** The seaboards of Aurora, Occidental Mindoro including Lubang Island, Romblon, and Polillo Islands; the western seaboard of Zambales, Bataan, and Cavite; the remaining seaboards of Batangas.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The seaboards of Isabela, Calamian Islands, Cuyo Islands, and Bucas Grande Island; the eastern seaboards of Dinagat and Siargao Islands; the remaining seaboards of Quezon.
- **Up to 3.5 m:** The eastern seaboards of Cagayan including Babuyan Islands, Pampanga, Bulacan, and Metro Manila; the remaining seaboards of Cavite, Dinagat Islands, and Siargao Island; the seaboards of Ilocos Norte
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The seaboards of Surigao del Norte, Davao del Sur, and Davao Oriental; the remaining seaboards of Palawan and Visayas.
- **Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Coastal Inundation

There is **high risk of life-threatening storm surge** with peak heights **exceeding 3.0 m** within 36 hours over the low-lying or exposed coastal localities of Zambales, Bataan, Metro Manila, CALABARZON, Occidental Mindoro including Lubang Island, Oriental Mindoro, Marinduque, Romblon, Palawan, Bicol Region, Northern Samar, Eastern Samar, Samar, Biliran, Leyte, Cebu, Aklan, Antique, and Capiz. **Refer to Storm Surge Warning No. 7 issued at 2:00 AM today for the details.**

Prepared by:

"tracking the sky...helping the country."

Checked by:

TROPICAL CYCLONE BULLETIN NR. 14

Typhoon OPONG (BUALOI)

Issued at 2:00 AM, 26 September 2025

Valid for broadcast until the next bulletin at 5:00 AM today.

TRACK AND INTENSITY OUTLOOK

- It must be emphasized that heavy rainfall, severe winds, and storm surge may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to the hoisted Wind Signals (for direct wind threat of the tropical cyclone) and "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift more to the north or to the south but within the limit of the forecast confidence cone.
- OPONG has made landfall over San Policarpio, Eastern Samar at 11:30 PM yesterday and will be moving west northwestward towards Bicol Region, where it is likely to make another landfall in the vicinity of Sorsogon or Masbate this morning. OPONG will move near or over Sibuyan Sea and traverse the mainland and/or island provinces of Bicol Region, southern CALABARZON, and northern MIMAROPA, before emerging over the West Philippine Sea tomorrow (27 September) early morning.
- As OPONG crosses the archipelago, it will likely remain as a typhoon or weaken into a severe tropical storm during the passage. Re-intensification is highly likely once OPONG emerges over the West Philippine Sea.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 AM today.
