- **Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

TRACK AND INTENSITY OUTLOOK

- DANTE is forecast to move generally northwestward over the Philippine Sea for the next 24 hours and move towards the Ryukyu Islands and then East China Sea. On the track forecast, DANTE may exit the Philippine Area of Responsibility (PAR) tomorrow (24 July) afternoon or evening.
- DANTE has reached Tropical Storm intensity at 8:00 AM today. Further intensification into a severe tropical storm remains less likely but is not ruled out.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.
