## TROPICAL CYCLONE BULLETIN NR. 1

### Tropical Depression HUANING

Issued at 5:00 AM, 18 August 2025

Valid for broadcast until the next bulletin at 11:00 AM today.

#### OTHER HAZARDS AFFECTING LAND AREAS

##### Severe Winds

HUANING is unlikely to directly affect the country within the next 48 hours.

#### HAZARDS AFFECTING COASTAL WATERS

Up to moderate seas over the following coastal waters:

- **Up to 2.0 m:** The seabards of Batanes; the northern and western seabards of Babuyan Islands, the northwestern and western seabards of Ilocos Norte; the western seabards of Ilocos Sur, Pangasinan, Zambales, Bataan, Occidental Mindoro, Lubang Island, and Palawan
- **Mariners of motor bancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigating in these conditions.**

#### TRACK AND INTENSITY OUTLOOK

- HUANING is forecast to move generally northward until tonight and will begin to turn north northeastward tomorrow early morning towards the Ryukyu Islands, Japan. On the forecast track, HUANING may exit the Philippine Area of Responsibility between late evening today and tomorrow morning.
- HUANING developed into a tropical depression at 2:00 AM today. It will remain a tropical depression throughout the forecast period.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 AM today.
