TROPICAL CYCLONE ADVISORY NR. 4

Severe Tropical Storm DANAS (Formerly "BISING")

Issued at 11:00 PM, 05 July 2025

Valid for broadcast until the next bulletin at 11:00 AM tomorrow.

GENERAL OUTLOOK FOR THE FORECAST PERIOD

24-Hour Sea Condition Outlook

A Gale Warning is hoisted over the northern seaboard of Northern Luzon. Refer to Gale Warning No. 1 issued at 11:00 PM today for the details.

Up to very rough seas over the following coastal waters:

- Up to 4.5 m: The seaboard of Batanes and the western seaboard of Babuyan Islands.
- Sea travel is risky for all types of tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor or soon as possible until winds and wave subside.

Up to rough seas over the following coastal waters:

- Up to 3.5 m: The western seaboard of Ilocos Norte.
- Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.

Up to moderate seas over the following coastal waters:

- Up to 2.5 m: The northwestern seaboard of Ilocos Sur and the remaining seabards of Ilocos Norte.
- Up to 2.0 m: The western seabards of La Union, Pangasinan, and Zambales, and the remaining seaboard of Ilocos Sur.
- Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.

Track and Intensity Outlook

- Severe Tropical Storm DANAS (formerly "BISING") will continue moving generally northeastward in the next 72 hours. DANAS will briefly pass the northwestern boundary of PAR between tomorrow evening and Monday (7 July) morning.
- DANAS intensified into a severe tropical storm at 8:00 PM today. It is forecast to steadily intensify and may reach Typhoon category tomorrow. Weakening trend will begin as DANAS passes over Taiwan Strait and may weaken into a low pressure area by Thursday (10 July) as it interacts with the landmass of Eastern China.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to continue monitoring for updates related to this tropical cyclone.

Unless there is an intermediate issuance, the next tropical cyclone advisory will be issued at 11:00 AM tomorrow.
