TROPICAL CYCLONE BULLETIN NR. 6

Typhoon BISING {DANAS}

Issued at 5:00 AM, 07 July 2025

Valid for broadcast until the next bulletin at 11:00 AM today.

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT

No Wind Signal currently hoisted.

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to Weather Advisory issued No. 4 at 5:00 AM today for the heavy rainfall outlook due to the Southwest Monsoon.

Severe Winds

The southwest monsoon will bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today (7 July):** Ilocos Region, Cagayan, Isabela, Aurora, Zambales, Bataan, Quezon, Occidental Mindoro, Masbate, and Romblon
- **Tomorrow (8 July):** Ilocos Region, Cagayan, Isabela, Aurora, Zambales, Bataan, Quezon, Masbate, Romblon, Occidental Mindoro, and Palawan.
- **Wednesday (9 July):** Ilocos Region, Cagayan, Aurora, Zambales, Bataan, Quezon, Masbate, Romblon, Occidental Mindoro, and Palawan.

TROPICAL CYCLONE BULLETIN NR. 6

Typhoon BISING {DANAS}

Issued at 5:00 AM, 07 July 2025

Valid for broadcast until the next bulletin at 11:00 AM today.

HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

Moderate to rough seas over the following coastal waters:

- **Up to 4.0 m:** The seaboard of Batanes and the western and northern seaboards of Babuyan Islands.
- **Up to 3.0 m:** The western seaboard of Ilocos Norte.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The seaboard of Zambales, and the remaining seaboards of Ilocos Region and Babuyan Islands.
- **Up to 2.0 m:** The seaboards of Bataan and Lubang Islands.
- **Mariners of motorbancas and similarly-sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

TRACK AND INTENSITY OUTLOOK

- Typhoon BISING entered the Philippine Area of Responsibility (PAR) at 11:00 PM yesterday and made landfall over the southwestern portion of Taiwan at 11:50 PM yesterday. BISING will continue moving generally northeastward while traversing the landmass of Taiwan. It will exit the northern boundary of the PAR this morning. On the forecast track, BISING will turn northwestward tomorrow and will make another landfall over Eastern China.
- BISING will continue to weaken throughout the forecast period and will become a remnant low by Wednesday (9 July) as it moves over the landmass of Eastern China.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 AM today.
